

MAKING SHORT WORK OF LONG HAULS

PINNACLE

TWIN Y™ AIR SUSPENSION

With a revolutionary design that includes two stamped high-strength steel Y-shaped blades per wheel, the Twin Y has a weight savings of up to 403 pounds versus other suspensions and an engine torque capacity up to 2,050 ft./lbs.

NATURAL GAS

Natural Gas delivers low emissions and high MPG's while tapping into abundant domestic resources.

MP ENGINE SERIES

With tons of horsepower and high torque ratings, the MP Engine Series commands the road. The lightweight, compact engine is also more efficient to boost your bottom line.

mDRIVE

The revolutionary mDRIVE makes pulling a big load easier, safer and smarter. Built exclusively for Pinnacle tractors, this 12-speed automated manual transmission maximizes driver comfort, payload, performance and fuel economy.
