

MAKING HARD WORK EASY PICKINGS

GRANITE

MP ENGINE SERIES

With 325 to 505 horsepower and 1,200-1,860 lb.-ft. torque ratings, the MP Engine Series has got the power you need. These highly fuel-efficient engines also deliver the lowest emissions ever offered by Mack.

mRIDE SPRING SUSPENSION

The next generation spring suspension that allows you to take everything the road throws at you. A lighter weight suspension for vocational trucks, its articulation keeps your wheels planted firmly on the ground, maximizing traction no matter the conditions.

S440 DRIVE AXLE

The S440 Drive Axle is built to last, requires little maintenance and minimizes unexpected downtime. It is engineered as a lighter alternative for heavy-duty use with tighter tolerances and fewer joints for greater reliability and longer life.

APPLICATION FLEXIBILITY

Granite offers extreme flexibility to tackle a wide range of applications and is compatible with a host of configurations, including: dump, dump with lift axle, five-axle dump, mixer, rear loader, roll off, snowplow, tandem steer mixer, tractor and tri-drive tractor.
