- Proudly made in the USA of fine imported leathers at our Port Washington, Wisconsin factory

OVERVIEW

The greatest generation worked through the Depression and went on to fight and win World War II. This boot honors this generation by recreating their stylish hard working footwear with modern materials such as distressed, soft kudu leather, vintage oil-infused outsoles, and keeping the boot unlined with natural edges. These boots have a look and feel so authentic you'll think they came straight out of your grandfather's closet.

How to Lace the Normandy Boot
