Never has your creativity made such a big difference

How can you make the world a better place? By applying for an *Ideas that Matter grant* by July 11.

As a designer you know how to solve problems with innovative thinking and creative outreach. Now it's time to share your skills with those who really need your help.

It's as simple as doing what you do best—devising a creative solution to a problem, partnering with a nonprofit and bringing your vision to life with the passion and professionalism that you already incorporate into every project.

This is our *15th year* of offering grants of up to \$50,000 and we are excited to find new designers like you who are dedicated to giving their all while

giving back.

Download the Call for Entries form today.
Applications due by July 11th, 2014.
